## Bill Description

Starting in fiscal year 2025, this bill reimburses each school participating in the Minnesota Free School Meals Program (MN-FSM) for up to one half-pint of milk served to a student in kindergarten through grade 5 who brings a meal from home and forgoes the no cost school lunch provided on that day. The reimbursement rate for each half-pint of milk will be the greater of 50 cents or the federal Special Milk Program rate established by the U.S. Department of Agriculture (USDA) Food and Nutrition Services (FNS) for that school year.

## Assumptions

To come up with this cost estimate, the Minnesota Department of Education (MDE) used the following assumptions:

- This new milk reimbursement is only available for schools participating in the Minnesota Free School Meals Program (MN-FSM).
- The reimbursement is available for milk served to students in kindergarten through grade 5 who are not taking a school lunch and who bring a meal from home.
- The daily attendance rate is $91.25 \%$.
- It is assumed that $25 \%$ of students who bring their own lunch will take one free milk per day.
- It is assumed that 100 students statewide daily will no longer take a lunch to get the free milk. There are 996 PK- 6 schools in the state in $23-24$, so this equates to approximately one student in every 10 schools. This will be a reduction in the school lunch appropriation.
- Reimbursement is limited to one half-pint milk per lunch per day.
- The greater reimbursement rate will be 50 cents per half-pint milk.
- With no way to split out the claim data for grades K-5, we are assuming the cost will approximate the cost of milk for grades K-12 divided by 13 times 6.
- Even though the $\$ 659,000$ appropriation for Kindergarten Milk has been stricken in the bill, it is assumed that the School Milk Program costs estimated here will be in addition to the current cost of the Kindergarten Milk Program.
- In regard to information technology costs, this program would be a significant change to the current Cyber-Linked Interactive Child Nutrition System (CLiCS), specifically the application and claim screens. Required Information Technology work includes development, regression testing, project management, and report modifications, with costs calculated at an average \$110 per hour. There will be 10\% for maintenance in FY26 and FY27.

## Expenditure and/or Revenue Formula

| Estimated FY24 pupil units | 909,469 |  |  |
| :---: | :---: | :---: | :---: |
| est. \# school days in Sept \& Oct | 39 |  |  |
| est. \# maximum meals in Sept \& Oct | 35,469,291 |  |  |
| Estimated daily attendance | 32,365,728 |  |  |
| Lunches served in Sept \& Oct 2023 (from Clics) | 22,921,326 |  |  |
| Difference (assumed bag lunch) | 9,444,402 |  |  |
| Estimated \# of K-5 students with a bag lunch | 4,358,955 |  |  |
| estmated percentage of K-5 students with bag lunch taking a milk | 1,089,739 |  |  |
| Cost for each milk | 0.50 |  |  |
| total cost for free milk | 544,870 |  |  |
|  |  |  |  |
| Total \# of daily K-5 lunches taken in Sept \& Oct to get the free milk (students * 39 days) | 3,900 | 3,900 | 3,900 |
|  | FY 2025 | FY 2026 | FY 2027 |
| cost per paid lunch | 4.225 | 4.388 | 4.478 |
|  |  |  |  |
|  |  |  |  |
| reduction in paid lunch for those not getting a lunch for free milk | -16,478 | -17,113 | -17,464 |
| increase in milk costs for those no longer getting a lunch for free milk | 1,950 | 1,950 | 1,950 |
| subtotal of cost change for those no longer taking the lunch to get milk for free | -14,528 | -15,163 | -15,514 |
|  |  |  |  |
| net total cost for free milk - Sept \& Oct (39 days) | 530,342 | 529,706 | 529,355 |
|  |  |  |  |
| net total cost for free milk - full school year (170 days) | 2,311,747 | 2,308,976 | 2,307,446 |
|  |  |  |  |
|  |  |  |  |
|  | FY 2025 | FY 2026 | FY 2027 |
| total increase in milk appropriation | 2,383,572 | 2,383,572 | 2,383,572 |
| total decrease in lunch appropriation | -71,825 | -74,596 | -76,126 |
|  |  |  |  |
| Net total MNIT costs | 58,080 | 5,808 | 5,808 |
| Total Costs | 2,369,827 | 2,314,784 | 2,313,254 |

## Long-Term Fiscal Considerations

Milk reimbursement could increase at the federal level above the $\$ 0.50$ per half pint of milk, which could increase the cost of this program.

## Local Fiscal Impact

Schools currently use Point-of-Sale (POS) systems in their meal service and a la carte options. A school would need to continue to charge for milk served to adults, to students in grades 6-12, and to students who take more than one milk, in addition to being able to account for the milks eligible under this program. Therefore, the schools in Minnesota might face IT costs to update their POS systems to account for this.
