22.25 **EFFECTIVE DATE.** This section is effective January 1, 2025.

22.26 Sec. 22. Minnesota Statutes 2022, section 424A.02, subdivision 9, is amended to read:

22.27 Subd. 9. **Limitation on ancillary benefits.** A defined benefit relief association, ~~including~~  
 22.28 ~~any volunteer firefighters relief association governed by Laws 2013, chapter 111, article 5,~~  
 22.29 ~~sections 31 to 42, or any volunteer firefighters division of a relief association governed by~~  
 22.30 ~~chapter 424, and the Bloomington Fire Department Relief Association~~ may only pay ancillary  
 22.31 benefits ~~which~~ that would constitute an authorized disbursement as specified in section  
 22.32 424A.05 subject to the following requirements or limitations:

23.1 (1) with respect to a defined benefit relief association in which governing bylaws provide  
23.2 solely for a lump-sum service pension to a retiring member, or provide a retiring member  
23.3 the choice of either a lump-sum service pension or a monthly service pension and the  
23.4 lump-sum service pension was chosen, no ancillary benefit may be paid to any former  
23.5 member or paid to any person on behalf of any former member after the former member (i)  
23.6 terminates active service with the fire department and active membership in the relief  
23.7 association; and (ii) commences receipt of a service pension as authorized under this section;  
23.8 and

23.9 (2) with respect to any defined benefit relief association, no ancillary benefit paid or  
23.10 payable to any member, to any former member, or to any person on behalf of any member  
23.11 or former member, may exceed in amount the total earned service pension of the member  
23.12 or former member. The total earned service pension must be calculated by multiplying the  
23.13 service pension amount specified in the bylaws of the relief association at the time of death  
23.14 or disability, whichever applies, by the years of service credited to the member or former  
23.15 member. The years of service must be determined as of (i) the date the member or former  
23.16 member became entitled to the ancillary benefit; or (ii) the date the member or former  
23.17 member died entitling a survivor or the estate of the member or former member to an  
23.18 ancillary benefit. The ancillary benefit must be calculated without regard to whether the  
23.19 member had attained the minimum amount of service and membership credit specified in  
23.20 the governing bylaws. For active members, the amount of a permanent disability benefit or  
23.21 a survivor benefit must be equal to the member's total earned service pension except that  
23.22 the bylaws of a defined benefit relief association may provide for the payment of a survivor  
23.23 benefit in an amount not to exceed five times the yearly service pension amount specified  
23.24 in the bylaws on behalf of any member who dies before having performed five years of  
23.25 active service in the fire department with which the relief association is affiliated. For  
23.26 deferred members, the amount of a permanent disability benefit or a survivor benefit must  
23.27 be calculated using the service pension amount in effect on the date specified in section  
23.28 424A.015, subdivision 6, unless the bylaws of the relief association specify a different  
23.29 service pension amount to be used for the calculation.

23.30 (3)(i) If a lump sum survivor or death benefit is payable under the articles of incorporation  
23.31 or bylaws, the benefit must be paid:

23.32 (A) as a survivor benefit to the surviving spouse of the deceased firefighter;

23.33 (B) as a survivor benefit to the surviving children of the deceased firefighter if no  
23.34 surviving spouse;

24.1 (C) as a survivor benefit to a designated beneficiary of the deceased firefighter if no  
 24.2 surviving spouse or surviving children; or

24.3 (D) as a death benefit to the estate of the deceased active or deferred firefighter if no  
 24.4 surviving children and no beneficiary designated.

24.5 (ii) If there are no surviving children, the surviving spouse may waive, in writing, wholly  
 24.6 or partially, the spouse's entitlement to a survivor benefit.

24.7 (4)(i) If a monthly benefit survivor or death benefit is payable under the articles of  
 24.8 incorporation or bylaws, the benefit must be paid:

24.9 (A) as a survivor benefit to the surviving spouse of the deceased firefighter;

24.10 (B) as a survivor benefit to the surviving children of the deceased firefighter if no  
 24.11 surviving spouse;

24.12 (C) as a survivor benefit to a designated beneficiary of the deceased firefighter if no  
 24.13 surviving spouse or surviving children; or

24.14 (D) as a death benefit to the estate of the deceased active or deferred firefighter if no  
 24.15 surviving spouse, no surviving children, and no beneficiary designated.

24.16 (ii) If there are no surviving children, the surviving spouse may waive, in writing, wholly  
 24.17 or partially, the spouse's entitlement to a survivor benefit.

24.18 (iii) For purposes of this clause, if the relief association bylaws authorize a monthly  
 24.19 survivor benefit payable to a designated beneficiary, the relief association bylaws may limit  
 24.20 the total survivor benefit amount payable.

24.21 (5) For purposes of this section, for a monthly benefit ~~volunteer fire~~ firefighters relief  
 24.22 association or for a combination lump-sum and monthly benefit ~~volunteer fire~~ firefighters  
 24.23 relief association where a monthly benefit service pension has been elected by or a monthly  
 24.24 benefit is payable with respect to a firefighter, a designated beneficiary must be a natural  
 24.25 person. For purposes of this section, for a lump-sum ~~volunteer fire~~ firefighters relief  
 24.26 association or for a combination lump-sum and monthly benefit ~~volunteer fire~~ firefighters  
 24.27 relief association where a lump-sum service pension has been elected by or a lump-sum  
 24.28 benefit is payable with respect to a firefighter, a trust created under chapter 501C may be  
 24.29 a designated beneficiary. If a trust is payable to the surviving children organized under  
 24.30 chapter 501C as authorized by this section and there is no surviving spouse, the survivor  
 24.31 benefit may be paid to the trust, notwithstanding a requirement of this section to the contrary.

 47.33 353G.01, subdivision 15, rendered as a firefighter in a fire department in the state that was

48.1 not covered by the retirement plan at the time the service was rendered if the firefighter  
 48.2 submits a request to the executive director indicating the number of years and months of  
 48.3 service for which credit is requested and provides documentation in a form acceptable to  
 48.4 the executive director regarding the earlier period of service. The firefighter must submit a

48.9 **EFFECTIVE DATE.** This section is effective July 1, 2024.

48.10 Sec. 29. Minnesota Statutes 2023 Supplement, section 353G.08, subdivision 1, is amended  
 48.11 to read:

48.12 Subdivision 1. **Annual Biennial funding requirements reports; lump-sum division.** (a)  
 48.13 ~~Annually,~~ The executive director ~~shall~~ must determine the funding requirements ~~of~~ for each  
 48.14 fire department account in the lump-sum division ~~of the statewide volunteer firefighter plan~~  
 48.15 on or before August 1 every other year. The funding requirements computed under this  
 48.16 subdivision must be determined using a mathematical procedure developed and certified  
 48.17 as accurate by the approved actuary retained by the ~~Public Employees Retirement~~ association  
 48.18 and must be based on present value factors using a six percent investment return rate, without  
 48.19 any decrement assumptions. ~~The funding requirements~~ executive director must be certified  
 48.20 provide written notice of the funding requirements to the entity or entities associated with  
 48.21 the fire department whose active firefighters are covered by the plan.

48.22 (b) The overall funding balance of each ~~lump-sum~~ fire department account for the current  
 48.23 calendar year must be determined in the following manner:

48.24 (1) The total accrued liability for all active and deferred members of the ~~account~~ fire  
 48.25 department as of December 31 of the current year must be calculated based on the service  
 48.26 credit of active and deferred members as of that date.

48.27 (2) The ~~total present~~ assets of the fire department account projected to December 31 of  
 48.28 the current year, including receipts by and disbursements from the account anticipated to  
 48.29 occur on or before December 31, must be calculated. ~~To the extent possible,~~ The market  
 48.30 executive director must begin phasing in the use of actuarial value of assets must be utilized  
 48.31 in making this calculation beginning with the funding reports for 2026.

48.32 (3) The amount of the ~~total present~~ assets calculated under clause (2) must be subtracted  
 48.33 from the amount of the total accrued liability calculated under clause (1). If the amount of

49.1 ~~total present~~ the assets exceeds the amount of the total accrued liability, then the account  
 49.2 is considered to have a surplus over full funding. If the amount of the ~~total present~~ assets  
 49.3 is less than the amount of the total accrued liability, then the account is considered to have  
 49.4 a deficit from full funding. If the amount of ~~total present~~ assets is equal to the amount of  
 49.5 the total accrued liability, then the ~~special fund~~ account is considered to be fully funded.

49.6 (c) The financial requirements of each ~~lump-sum account~~ fire department for the following  
 49.7 calendar year must be determined in the following manner:

49.8 (1) The total accrued liability for all active and deferred members of the ~~account~~ fire  
 49.9 department as of December 31 of the calendar year next following the current calendar year  
 49.10 must be calculated based on the service used in the calculation under paragraph (b), clause  
 49.11 (1), increased by one year.

49.12 (2) The increase in the total accrued liability of the account for the following calendar  
 49.13 year over the total accrued liability of the account for the current year must be calculated.

49.14 (3) The amount of administrative expenses of the account must be calculated by  
 49.15 multiplying the per-person dollar amount of the administrative expenses for the most recent  
 49.16 prior calendar year by the number of active and deferred firefighters reported to ~~PERA~~ the  
 49.17 association on the most recent service credit certification form for ~~each~~ the account.

49.18 (4) If the account is fully funded, the financial requirement of the account for the  
 49.19 following calendar year is the total of the amounts calculated under clauses (2) and (3).

49.20 (5) If the account has a deficit from full funding, the financial requirement of the account  
 49.21 for the following calendar year is the total of the amounts calculated under clauses (2) and  
 49.22 (3) plus an amount equal to one-tenth of the amount of the deficit from full funding of the  
 49.23 account.

49.24 (6) If the account has a surplus over full funding, the financial requirement of the account  
 49.25 for the following calendar year is the financial requirement of the account calculated as  
 49.26 though the account was fully funded under clause (4) and, if the account has also had a  
 49.27 surplus over full funding during the prior two years, additionally reduced by an amount  
 49.28 equal to one-tenth of the amount of the surplus over full funding of the account.

49.29 (d) The required contribution of the entity or entities associated with the fire department  
 49.30 whose active firefighters are covered by the lump-sum division is the annual financial  
 49.31 requirements of the ~~lump-sum~~ fire department account ~~of the plan~~ under paragraph (c)  
 49.32 reduced by the amount of any fire state aid payable under chapter 477B or police and

50.1 reasonably anticipated to be received by the retirement plan attributable to the entity or  
 50.2 entities during the following calendar year, and an amount of ~~interest~~ investment earnings  
 50.3 on the assets projected to be received during the following calendar year calculated at the  
 50.4 rate of six percent per annum. The required contribution must be allocated between the  
 50.5 entities if more than one entity is involved. A reasonable amount of anticipated fire state  
 50.6 aid is an amount that does not exceed the fire state aid ~~actually~~ received in the prior year  
 50.7 multiplied by the factor 1.035.

50.8 (e) The financial requirement for each fire department account in the lump-sum division  
 50.9 for the second year of the biennial valuation period must be in the amount determined in  
 50.10 paragraph (d) increased by six percent, but no more than the excess, if any, of the amount  
 50.11 determined under paragraph (c), clause (1), less the actual market value of assets in the fire  
 50.12 department account as of that date.

50.13 ~~(e)~~ (f) The required contribution calculated in paragraph (d) must be paid to the retirement  
 50.14 plan on or before December 31 of the year for which it was calculated. If the contribution  
 50.15 is not received by the plan by December 31, it is payable with interest at an annual compound  
 50.16 rate of six percent from the date due until the date payment is received by the plan. If the  
 50.17 entity does not pay the full amount of the required contribution, the executive director shall  
 50.18 collect the unpaid amount under section 353.28, subdivision 6.

50.19 **EFFECTIVE DATE.** This section is effective January 1, 2025.

50.20 Sec. 30. Minnesota Statutes 2022, section 353G.08, subdivision 2, is amended to read:

50.21 Subd. 2. **Cash flow funding requirement.** If the executive director determines that a  
 50.22 fire department account in the lump-sum ~~retirement~~ division or a the monthly benefit  
 50.23 ~~retirement account in the statewide volunteer firefighter plan~~ division has insufficient assets  
 50.24 to meet the service pensions expected to be payable from the account over the succeeding  
 50.25 two years, the executive director shall certify the amount of the potential service pension  
 50.26 shortfall to the ~~municipality or municipalities and the municipality or municipalities shall~~  
 50.27 participating employer, which must make an additional employer contribution to the account  
 50.28 within ten days of the certification. If more than one ~~municipality~~ participating employer  
 50.29 is associated with the account, unless the ~~municipalities~~ participating employers agree to  
 50.30 and implement a different allocation, the ~~municipalities shall~~ participating employers must  
 50.31 allocate the additional employer contribution one-half in proportion to the population of  
 50.32 each ~~municipality~~ participating employer and one-half in proportion to the estimated market

83.13 Subd. 4. **Medical or psychological evidence.** (a) An applicant shall provide medical,

83.14 chiropractic, or psychological evidence to support an application for disability benefits. The

83.15 director ~~shall~~ may have the employee examined by at least one additional licensed physician,

83.16 APRN, chiropractor, or psychologist who is designated by the medical adviser. The

83.17 physicians, APRNs, chiropractors, or psychologists with respect to a mental impairment,

83.18 shall make written reports to the director concerning the question of the employee's disability,

83.19 including their expert opinions as to whether the employee has an occupational disability

83.20 within the meaning of section 352.01, subdivision 17a, and whether the employee has a

83.21 duty disability, physical or psychological, under section 352.01, subdivision 17b, or has a

83.22 regular disability, physical or psychological, under section 352.01, subdivision 17c. The

83.23 director shall also obtain written certification from the employer stating whether or not the

83.24 employee is on sick leave of absence because of a disability that will prevent further service

83.25 to the employer performing normal duties as defined in section 352.01, subdivision 17d, or

83.26 performing less frequent duties as defined in section 352.01, subdivision 17e, and as a

83.27 consequence, the employee is not entitled to compensation from the employer.

83.28 (b) If, on considering the reports by the physicians, APRNs, chiropractors, or

83.29 psychologists and any other evidence supplied by the employee or others, the medical

83.30 adviser finds that the employee has an occupational disability within the meaning of section

83.31 352.01, subdivision 17a, the adviser shall make the appropriate recommendation to the

83.32 director, in writing, together with the date from which the employee has been disabled. The

84.1 director shall then determine the propriety of authorizing payment of a duty disability benefit  
84.2 or a regular disability benefit as provided in this section.

84.3 (c) Unless the payment of a disability benefit has terminated because the employee no  
84.4 longer has an occupational disability, or because the employee has reached either age 55  
84.5 or the five-year anniversary of the effective date of the disability benefit, whichever is later,  
84.6 the disability benefit must cease with the last payment which was received by the disabled  
84.7 employee or which had accrued during the employee's lifetime. While disability benefits  
84.8 are paid, the director has the right, at reasonable times, to require the disabled employee to  
84.9 submit proof of the continuance of an occupational disability. If any examination indicates  
84.10 to the medical adviser that the employee no longer has an occupational disability, the  
84.11 disability payment must be discontinued upon the person's reinstatement to state service or  
84.12 within 60 days of the finding, whichever is sooner.

100.5 amended to read:

100.6 Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating the level  
100.7 normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial  
100.8 reporting purposes indicating the additional annual contribution sufficient to amortize the  
100.9 unfunded actuarial accrued liability and must contain an exhibit indicating the additional  
100.10 contribution sufficient to amortize the unfunded actuarial accrued liability. For the retirement  
100.11 plans listed in subdivision 8, paragraph (a), but excluding the legislators retirement plan,  
100.12 the Bloomington Fire Department Relief Association, and the local monthly benefit volunteer  
100.13 firefighter relief associations, the additional contribution must be calculated on a level  
100.14 percentage of covered payroll basis by the established date for full funding in effect when  
100.15 the valuation is prepared, assuming annual payroll growth at the applicable percentage rate  
100.16 set forth in the appendix described in subdivision 8, paragraph (c). For the legislators  
100.17 retirement plan, the additional annual contribution must be calculated on a level annual  
100.18 dollar amount basis.

100.19 ~~(b) For any retirement plan other than a retirement plan governed by paragraph (d), (e),~~

100.23 ~~calculating the actuarial accrued liability of all or a portion of the fund, or a combination~~  
100.24 ~~of the three, which change or changes by itself or by themselves without inclusion of any~~  
100.25 ~~other items of increase or decrease produce a net increase in the unfunded actuarial accrued~~  
100.26 ~~liability of the fund, the established date for full funding is the first actuarial valuation date~~  
100.27 ~~occurring after June 1, 2020.~~

100.28 (e) (b) This paragraph applies only if the calculation under this paragraph for a retirement  
100.29 plan results in an established date for full funding that is earlier than the established date  
100.30 for full funding applicable to the retirement plan under paragraph (c). For any retirement  
100.31 plan, if there has been a change in any or all of the actuarial assumptions used for calculating  
100.32 the actuarial accrued liability of the fund, a change in the benefit plan governing annuities  
100.33 and benefits payable from the fund, a change in the actuarial cost method used in calculating  
100.34 the actuarial accrued liability of all or a portion of the fund, or a combination of the three,  
100.35 and the change or changes, by itself or by themselves and without inclusion of any other

101.1 items of increase or decrease, produce a net increase in the unfunded actuarial accrued  
101.2 liability in the fund, the established date for full funding must be determined using the  
101.3 following procedure:

101.4 (i) the unfunded actuarial accrued liability of the fund must be determined in accordance  
101.5 with the plan provisions governing annuities and retirement benefits and the actuarial  
101.6 assumptions in effect before an applicable change;

101.7 (ii) the level annual dollar contribution or level percentage, whichever is applicable,  
101.8 needed to amortize the unfunded actuarial accrued liability amount determined under item  
101.9 (i) by the established date for full funding in effect before the change must be calculated  
101.10 using the investment return assumption specified in subdivision 8 in effect before the change;

101.11 (iii) the unfunded actuarial accrued liability of the fund must be determined in accordance  
101.12 with any new plan provisions governing annuities and benefits payable from the fund and  
101.13 any new actuarial assumptions and the remaining plan provisions governing annuities and  
101.14 benefits payable from the fund and actuarial assumptions in effect before the change;

101.15 (iv) the level annual dollar contribution or level percentage, whichever is applicable,  
101.16 needed to amortize the difference between the unfunded actuarial accrued liability amount  
101.17 calculated under item (i) and the unfunded actuarial accrued liability amount calculated  
101.18 under item (iii) over a period of 30 years from the end of the plan year in which the applicable  
101.19 change is effective must be calculated using the applicable investment return assumption  
101.20 specified in subdivision 8 in effect after any applicable change;

101.21 (v) the level annual dollar or level percentage amortization contribution under item (iv)  
101.22 must be added to the level annual dollar amortization contribution or level percentage  
101.23 calculated under item (ii);

101.24 (vi) the period in which the unfunded actuarial accrued liability amount determined in  
101.25 item (iii) is amortized by the total level annual dollar or level percentage amortization  
101.26 contribution computed under item (v) must be calculated using the investment return  
101.27 assumption specified in subdivision 8 in effect after any applicable change, rounded to the  
101.28 nearest integral number of years, but not to exceed 30 years from the end of the plan year  
101.29 in which the determination of the established date for full funding using the procedure set  
101.30 forth in this clause is made and not to be less than the period of years beginning in the plan  
101.31 year in which the determination of the established date for full funding using the procedure  
101.32 set forth in this clause is made and ending by the date for full funding in effect before the  
101.33 change; and

102.1 (vii) the period determined under item (vi) must be added to the date as of which the  
 102.2 actuarial valuation was prepared and the date obtained is the new established date for full  
 102.3 funding.

102.4 (c) The established date for full funding is the date provided for each of the following  
 102.5 plans:

 102.24 excess of valuation assets over the actuarial accrued liability, the valuation assets in excess  
 102.25 of the actuarial accrued liability must be recognized as a reduction in the current contribution  
 102.26 requirements by an amount equal to the amortization of the excess expressed as a level  
 102.27 percentage of pay over a 30-year period beginning anew with each annual actuarial valuation  
 102.28 of the plan.

- 104.17 **Sec. 4. [356.612] LIMITATION ON BENEFITS AND CONTRIBUTIONS.**
- 104.18 **Subdivision 1. Definitions.** (a) For purposes of this section, the following terms have
- 104.19 the meanings given.
- 104.20 (b) "Annual addition" means the sum for the limitation year of all pretax and after-tax
- 104.21 contributions made by the member or the member's employer and credited to an account in
- 104.22 the name of the member in any defined contribution plan maintained by the employer.
- 104.23 (c) "Annuity starting date" means the first day of the first period for which an amount
- 104.24 is payable as an annuity or, in the case of a benefit not payable in the form of an annuity,
- 104.25 the first day on which all events have occurred which entitle the member to the benefit.
- 104.26 (d) "Compensation" means the compensation actually paid or made available to a member
- 104.27 or participant for any limitation year, including all items of remuneration described in Code
- 104.28 of Federal Regulations, title 26, section 1.415(c)-2(b), and excluding all items of remuneration
- 104.29 described in Code of Federal Regulations, title 26, section 1.415(c)-2(c). Compensation for
- 104.30 pension plan purposes for any limitation year shall not exceed the applicable federal
- 104.31 compensation limit described in section 356.611, subdivision 2.

105.1 (e) "Limitation year" means the calendar year or fiscal year, whichever is applicable to  
105.2 the particular pension plan.

105.3 (f) "Maximum permissible benefit" means an annual benefit of \$160,000, automatically  
105.4 adjusted under section 415(d) of the Internal Revenue Code for each limitation year ending  
105.5 after December 31, 2001, payable in the form of a single life annuity. The new limitation  
105.6 shall apply to limitation years ending with or within the calendar year of the date of the  
105.7 adjustment, but a member's benefits shall not reflect the adjusted limit prior to January 1 of  
105.8 that calendar year. The maximum permissible benefit amount shall be further adjusted as  
105.9 follows:

105.10 (1) if the member has less than ten years of participation, the maximum permissible  
105.11 benefit shall be multiplied by a fraction, the numerator of which is the number of years, or  
105.12 part thereof, but not less than one year, of participation in the plan, and the denominator of  
105.13 which is ten;

105.14 (2) for a member who is not a qualified participant, if the annual benefit begins before  
105.15 the member has attained 62 years of age, the determination as to whether the maximum  
105.16 permissible benefit limit has been satisfied shall be made, in accordance with regulations  
105.17 prescribed by the United States secretary of the treasury, by reducing the limit so that the  
105.18 limit, as so reduced, equals an annual benefit, beginning when the annual benefit actually  
105.19 begins, which is equivalent to a \$160,000, as adjusted, annual benefit beginning at 62 years  
105.20 of age; and

105.21 (3) if the annual benefit begins after the member has attained 65 years of age, the  
105.22 determination as to whether the maximum permissible benefit limit has been satisfied shall  
105.23 be made, in accordance with regulations prescribed by the United States secretary of the  
105.24 treasury, by increasing the limit so that the limit, as so increased, equals an annual benefit,  
105.25 beginning when the annual benefit actually begins, which is equivalent to a \$160,000, as  
105.26 adjusted, annual benefit beginning at 65 years of age.

105.27 (g) "Qualified participant" means a member of a defined benefit plan listed in section

105.31 (1) as a full-time employee of any police department or fire department which is organized  
105.32 and operated by the state, Indian Tribal government, or any political subdivision maintaining

106.5 plan listed in section 356.611, subdivision 6, the annual benefit payable to a member shall  
106.6 not exceed the maximum permissible benefit. If the benefit the member would otherwise  
106.7 receive for a limitation year would result in the payment of an annual benefit in excess of  
106.8 the maximum permissible benefit, the benefit shall be reduced to the extent necessary so  
106.9 the benefit does not exceed the maximum permissible benefit.

106.10 (b) For purposes of applying the limitation in paragraph (a), an annual benefit that is  
106.11 payable in any form other than a single life annuity shall be adjusted to an actuarially  
106.12 equivalent single life annuity that equals, if the annuity starting date is in a plan year  
106.13 beginning after 2005, the annual amount of the single life annuity commencing at the same

106.15 benefit, using whichever of the following produces the greatest annual amount:

106.19 (3) the applicable interest rate under section 417(e)(3) of the Internal Revenue Code and  
106.20 the applicable mortality table, divided by 1.05.

106.21 (c) If a member participated in more than one pension plan in which the employer  
106.22 participates, the benefits under each plan must be reduced proportionately to satisfy the  
106.23 limitation in paragraph (a).

106.24 Subd. 3. **Annual addition limitation; defined contribution plans.** For any limitation  
106.25 year, the annual additions by or on behalf of a member to a defined contribution plan listed  
106.26 in section 356.611, subdivision 6, shall not exceed the lesser of:

106.27 (1) 100 percent of the member's compensation for the limitation year; or

106.28 (2) the dollar limit in effect for the limitation year under section 415(c)(1)(A) of the  
106.29 Internal Revenue Code, as adjusted by the United States secretary of the treasury under  
106.30 section 415(d)(1)(C) of the Internal Revenue Code.

106.31 Subd. 4. **Incorporation by reference.** Any requirements of section 415(b) and (c) of

 107.9 must not be applied to increase the benefits any participant would otherwise receive under  
 107.10 the plan at any time prior to the termination of the plan or the complete discontinuance of  
 107.11 employer contributions.

107.12 **EFFECTIVE DATE.** This section is effective the day following final enactment.

 108.16 with an information return indicating the amount of the employer's picked-up contributions  
 108.17 for the calendar year that were not subject to withholding. This return must be provided to
