S.F. 610, as proposed to be amended by the A-1 amendment, allows child care centers and family child care providers to develop a policy regarding immunizations for children over two months of age.

Section 1 (121A.15, subdivision 3) states that subdivision 3, paragraph (d), which allows immunizations to not be required if a notarized statement detailing the conscientiously held beliefs of a parent or guardian is submitted to a school or child care facility, does not apply to a child enrolling or enrolled in a child care center or family child care program that adopts an immunization policy under subdivision 3b.

Section 2 [121A.15, subdivision 3b] allows child care centers and family child care providers to adopt a policy that prohibits a child over two months of age from enrolling or remaining enrolled in the center or program if the child isn't immunized pursuant to subdivision 1 or 2 and is not exempt from immunization under subdivision 3, paragraph (a), (c), (e), or (f).
